Committee Role, Affordability Roadmap & CO APCD Funding

Executive Director Kim Bimestefer •

Colorado Department of Health Care Policy & Financing

CENTER FOR IMPROVING

Committee Roles – Historical v Future Focus See Handout

- CAAC current role (C.R.S. 25.5-1-204 2018): The advisory committee shall make recommendations to the ED and the CO APCD administrator:
- CAAC current role (SB 18-1327): the Advisory Committee shall:
- Administrator Duties with CAAC input (C.R.S. 25.5-1-204 2018): The administrator, with input from the advisory committee shall:

Committee Roles – Future Focus

In addition to core statutory and regulatory requirements...

Utilize CO APCD Advisory Committee to provide input and insights on how CIVHC as Administrator of the CO APCD can provide valuable information in support of the State Affordability Roadmap

2019 Legislation Followed

- HB 19-1174 Out of Network
- SB 19-004 High Cost Health Insurance Pilot Program (PEAK Alliance)
- HB 19-1168 Reinsurance (Exchange)

New CO APCD State Funding

- Total Newly Approved FY20: \$4.04M
 - Scholarship Fund \$0.50M
 - Prior Approved GF \$1.03M (CMS 50/50- State portion)
 - New approved funds \$2.51M

(Additional funds may be available through other contracts for services – i.e. SIM/TCPI; fiscal notes; legacy contracted services; etc)

Agenda

- Welcome and Introductions
- Committee Role, Affordability Roadmap & CO APCD Funding
- Public Reporting

Public Reporting

Cari Frank, MBA •

CIVHC VP of Communication and Marketing

CENTER FOR IMPROVING

Recent Releases - Opioids

Although fill rate has fallen for two of the three opioids analyzed, **more than half** of all prescriptions filled were for eight days or more.

Recent Releases – Opioids Cont.

- Although it's least prescribed, Oxycodone prescription fill rates increased 247% between 2009-2017.
- Rates of Percocet and Vicodin fills have steadily declined since reaching a peak in 2014, although Percocet fill rates in 2017 were still higher than 2009 rates.

Opioid use disorders impact us all, not only patients.Working from within the health care system and across communities, together we can make a positive impact.

One critical approach to minimizing opioid use disorders is reducing the number of pills given to people with temporary, acute pain. Centers for Disease Control (CDC) research shows that people receiving a five-day supply of opioids the first time they are prescribed have a 10 percent chance of becoming addicted and using opioids long term (one year or more). The likelihood of using an opioid for over a year doubles to 20 percent for people receiving a 10-day supply and jumps up to 45 percent for patients receiving an initial 40-day supply.

To help reduce long-term use and dependency when treating acute pain, the CDC suggests that providers offer alternative treatment options to opioids, and when necessary, prescribe the lowest effective dose for the shortest duration, typically three to seven days.⁸

Opioid Prescribing Patterns in Colorado

To understand patterns in opioid days supply being prescribed and filled in Colorado, the Center for Improving Value in Health Care (CIVHC), used data from the Colorado All Payer Claims Database (COAPCD) to evaluate trends for short-acting versions of three commonly prescribed opioids: Oxycodone, Percocet, and Vicodin.

According to COAPCD data, between 2009 and 2017, Coloradans with Commercial, Medicaid and Medicare Advantage health insurance filled nearly 7 million prescriptions for the short-acting versions of Oxycodone, Vicodin and Percocet.

Oxycodone, Percocet, and Vicodin Prescription Trends in Colorado, 2009-2017 Commercial, Medicaid, and Medicare Advantage, CO APCD

Recent Releases – Price Variation Graphics with State Medians

Planned Upcoming Releases

- Updates pending to Reference Based Price reports
- May July: Additional infographics and geographic variation related facility price and quality information (DOI region price information, % facility fee)
- Target July Aug: Pharmacy dashboard
- Target Aug Dec: Updates to current Interactive Reports plus updated Insights (2016-2018 data) – pending Medicaid submission
- **Target October:** Total Cost of Care trend information (2014-17) and inclusion of Medicaid; public interactive report if possible
- Target November: Facility Price updated with 2018; Investigating adding new Prometheus episodes and potentially dental services
- **December:** Annual Report with analytic insights

Reference Based Pricing Analysis

- RAND study using CO APCD data released 5.11
- Excel file with named hospital/system information available
- Planning to use RAND data to provide public report information; re-calculate reference-based price cost savings estimates

Agenda

CO APCD Scholarship Subcommittee

Peter Sheehan •

CIVHC VP of Business Development

CENTER FOR IMPROVING

CO APCD Scholarship Subcommittee

Scholarship Subcommittee Members:

- David Keller, CU School of Medicine, Children's Hospital
- Chris Underwood, Dept. of Health Care Policy & Financing
- Nathan Wilkes, Headstorms, Inc.

Update

Fiscal Year to Date, 18 projects have been approved by the Scholarship Subcommittee and also approved by HCPF.

The full \$500,000 has been allocated across 18 different projects:

2 Government project requests6 Academic institution/research project requests10 Non-profit project requests

Data Requestor	Opportunity Name	HCPF Scholarship Portion	Close Date	Research	Govt	Non Profits
Children's Hospital Colorado & University of Colorado Denver (UCD)	19.02 Predicting Asthma Outcomes through Analysis of Early Respiratory Hospitalizations in Children	\$33,904.00	10/31/2018	1		
University of Colorado Denver (UCD) Cancer Center	19.05 UCD HPV Vaccination HSR Project, Evaluating the impact of distance and vaccination	\$36,256.00	9/27/2018	1		
University of Colorado Denver (UCD) School of Medicine	18.77 Apoyo con Carino (Support through Caring): Improving Palliative Care Outcomes for Latinos with Advanced Medical Illness	\$38,651.00	5/31/2019	1		
University of Colorado Denver (UCD) School of Medicine	16.76.3 UCD Cardiac Stress Tests- Evaluating Low-Value Tests and Their Potential Harm	\$32,560.00	4/16/2019	1		
Colorado School of Public Health	19.71 UCD Evaluating and Modeling REMS Drug Diffusion, Prescription & Utilization Patterns	\$37,712.00	1/30/2019	1		
University of California Los Angeles (UCLA)	18.107 UCLA Youth Psychotropic Medication Use	\$44,696.00	12/27/2018	1		
CIVHC Analytics	19.104 Milliman/VBID Low Value Waste Calculator Extract	\$38,159.00	4/30/2019			1
Colorado Children's Access Program	18.37 Emergency Department Utilization Project- Evaluating the Cost Savings of Establishing Medical Homes	\$35,510.00	5/10/2019			1
Colorado Community Managed Care Network (CCMCN)	19.40 CCMCN Subscription (Integrating Claims Data to FQHC Clinical Data for Care Management)	\$45,000.00	6/30/2019			1

Data Requestor	Opportunity Name	HCPF Scholarship Portion	Close Date	Research	Govt	Non Profits
Colorado Consumer Health Initative	18.121 Analysis of Prescription Drug Costs, Top 20 High Volume/High Cost Prescriptions	\$24,656.00	8/24/2018			1
Colorado Dental Association (CDA)	19.67 Evaluating ED usage for Dental Pain since the inclusion of dental benefits in HFC Medicaid Plans	\$8,500.00	1/4/2019			1
Colorado Dental Association (CDA)	19.68 Evaluating the utilization of dental services between embedded plans vs. standalone plans.	\$0.00	11/30/2018			1
Colorado Medical Society	19.08 Charging Patterns for Professional Services in CO Relating to Out-of-Network and Variations in Pricing	\$27,824.00	1/25/2019			1
Northwest Colorado Community Health Partnership	19.35 ED Utilization and Potentially Avoidable Costs in NW CO	\$17,504.00	11/30/2018			1
Palliative Care	17.123.3 Palliative Care: The Costs Associated with the Care at End of Life	\$20,500.00	5/16/2019			1
Quality Health Network (QHN)	19.10 QHN Medicaid and Medicare Eligibility in support of RAE and AHCM CMS Grant activities	\$13,500.00	5/31/2019			1
Colorado State- Division of Insurance	19.101 Potential Savings with Costs Associated with Reinsurance Program Repricing Claims using Medicare Reference Based Methodology	\$35,884.00	2/22/2019		1	
Colorado State Legislature	19.103 Understanding the Variance of Paid/Allowed Amount Among the Top 25 CPT Codes Across the State	\$9,184.00	2/28/2019		1	
	total:	\$500,000.00		6	2	10

CO APCD Scholarship Subcommittee

Next Steps & Action Items

The Scholarship program has proven to be very popular. Applications are reviewed and approved on a first-come, first served basis each fiscal year. Several projects shifted to FY 2020 due to the dollars being fully allocated this year.

Scholarship eligible projects for FY 20 are currently being vetted and will be moving to the Subcommittee for review

A 2019 review and 2020 planning meeting is being held with HCPF on May 29th

Current and Enhanced Quality Processes

Vinita Bahl, DMD, MPP • CIVHC Director of Analytics and Data

CENTER FOR IMPROVING

Overview

- User experiences are a reflection of several gaps in the process of delivering high quality, valid results
- Delivering high quality, valid results dependent on:
 - 1. Quality of underlying data in CO APCD
 - 2. An analytic process focused on understanding client need and executed to produce desired results
- Evaluation of processes for these key elements reveal opportunities for improvement

Process of Delivering Information

26

Potential Problems Delivering Information

CO APCD Data Quality – Current Process

CO APCD Data Quality – Current Process

Assessment of Data Quality Process To-Date

- Although hundreds of data quality checks are performed, these checks are still incomplete
- Numerous reports of results of data quality checks; most require time-consuming review to identify problems
- Documentation of data quality process and of reports is incomplete

CO APCD Data Quality – New Framework

Dimensions of Quality & Quality Checks for Data Submissions/Enhancements Designed to identify incomplete, incorrect or redundant data

Check file submissions each month for completeness and explainable trends	Check data enhancements (e.g., member composite ID, APR-DRG)
Check submitter compliance with Data Submission Guide	Check for erroneous claims data (e.g., claim with procedure inappropriate for patient gender)
Check Medicare data files that are not submitted according to DSG	Identify and document redundant data (e.g., Medicare Part D)
Check of proper claims handling (e.g., claim reversals, adjustments, sum of claim lines)	Validation with other sources (e.g., parity checks with submitters, hospital data with CHA)

CO APCD Data Quality – Current Status

Dimensions of Quality & Quality Checks for Data Submissions/Enhancements Designed to identify incomplete, incorrect or redundant data					
Check file submissions each month for completeness and explainable trends		Check data enhancements (e.g., member composite ID, APR-DRG)			
Check submitter compliance with Data Submission Guide		Check for erroneous claims data (e.g., claim with procedure inappropriate for patient gender)	\bigcirc		
Check Medicare data files that are not submitted according to DSG		Identify and document redundant data (e.g., Medicare Part D)			
Check of proper claims handling (e.g., claim reversals, adjustments, sum of claim lines)		Validation with other sources (e.g., parity checks with submitters, hospital data with CHA)	\bigcirc		

CO APCD Data Quality – Next Steps

- Conduct deep-dive into each dimension of data quality checks to identify gaps
- Develop plan, with priorities for filling gaps
- Design reports that directly expose data quality problems
- Document:
 - Enhanced data quality process
 - Details of business rules that explain how data is mapped or transformed from submitted files to CO APCD
 - Recommendations for updates to DSG
 - CO APCD data dictionary
- Create feedback loops and CQI processes with CO APCD users to identify and resolve data quality problems

Analytic Structure & Process

 analyst, who typically works independently to specify methods and output Limited analyst communication with client No formal oversight by Director of Analytics Quality control mostly limited to review of analyst programming requests and specifying analytic plan, methods and output Communicate directly with client to resolve questions about request Oversight of analytic structure, process and outcomes by Director Enhance quality control to include team review and test of validity of 	Current (Individual Approach)	New (Team Approach)

Analytic Process – New Team Process

Summary

- User experiences are a reflection of several gaps in the process of delivering high quality, valid results
- Opportunities for improvement
 - Reframe quality checks of data in CO APCD so they address meaningful dimensions of data quality and document key processes
 - Establish team approach with analysts for reviewing requests; specifying analytic plan, methods and output; and reviewing and testing validity of results
