

# Data Quality Workplan

- Continuous Quality Improvement (CQI)
  - Data Discovery Log Redesign
    - Guidance specific to data use needs
  - DQ Team Data Warehouse Refresh
    - Activities for after each refresh
  - Submitter Profiles / Submitter Quality Index
    - Submitter data quality profiles, including an index to assess overall submitter performance across all standard measures of quality.

# Data Quality Workplan

- Enhanced Quality Metrics
  - Substance Use Disorder (SUD) Claims Collection
    - A new indicator will be created in the CO APCD to quickly identify these to omit from analyses.
    - Using a combination of sources to identify SUD claims
  - Employer Composite ID
    - Create a unique identifier for each employer. Need to be able to tie together over time for any name changes, EIN changes, etc.
    - Supports ongoing reporting to employer groups and purchasing alliances.

# Data Quality Workplan

- Parity
  - Medicaid Supplemental Payments
    - Payments beyond the reflected paid amounts on the claims made by Medicaid are not represented in the CO APCD. CIVHC is expanding the methodology it uses to distribute supplemental hospital payments to include programs impacting SNF reimbursement.
- Data Intake
  - Resubmissions
