Title: Epidemiology, demographics, presentation, and treatment patterns of Stiff Person Syndrome in the University of Colorado Health Care System
COMIRB#: 22-1727
Investigator: Amanda Piquet
Subject: Initial Application
Funding Source(s): Rocky Mountain Multiple Sclerosis Center~
Panel: UCD Panel B
Effective Date: 27-Sep-2022
Exemption Category: 4
Submission ID: APP001-1

SUBMISSION DESCRIPTION:

Initial Secondary Research Submission

Your COMIRB Initial submission APP001-1 has been determined to be EXEMPT from IRB review.
There is no requirement for continuing review and your study has not been given an expiration date.

For the duration of your protocol, any change to the Principal Investigator, or any changes that may affect the exemption determination must be submitted to COMIRB before implementation of the changes. Information on how to submit changes (amendments) and reports of unanticipated problems for your study to COMIRB can be found on the COMIRB website <http://www.ucdenver.edu/research/comirb/submissions/>.

When your research is complete, please notify COMIRB by e-mail at COMIRB@ucdenver.edu

REVIEW DETAILS:

Category 4

This protocol meets the criteria for exempt Category 4, as it is using secondary data.

Waiver of HIPAA Authorization

The research was reviewed by an IRB member and determined to meet criteria for exemption under category 4. This determination will be reported to the IRB.

An IRB member reviewed and approved the request for a full waiver of HIPAA Authorization. All criteria for a waiver of HIPAA Authorization were met.
