

CENTER FOR IMPROVING  
VALUE IN HEALTH CARE

## New Data Elements Available in the CO All Payer Claims Database (CO APCD)

Fall 2023

On an annual basis, Center for Improving Value in Health Care (CIVHC) updates the [Data Submission Guide \(DSG\)](#) identifying elements that payers must submit to the CO APCD. With each update, new fields become available for public, and in some circumstances, non-public releases (subject to data release rules and HIPAA/HITECH laws, etc.). The table below provides a summary of the new elements that are available with the latest DSG update (DSG 14).

**Please Note:** Some new data elements will not have historic years available since they are new submission requirements for payers. Additionally, with new submissions, some data fields may be missing or incomplete as health insurance payers adjust to new requirements. Please contact [ColoradoAPCD@civhc.org](mailto:ColoradoAPCD@civhc.org) to inquire about completeness for specific data elements.

New Element	Description	Claims Type(s)/Level
<b>Member Coverage Information</b>		
<b>Regional Accountable Entity (RAE) Indicator</b>	Identifies which Medicaid program the member is associated with. RAE Region 1 through RAE Region 7.	Member Eligibility
<b>HIOS Plan ID</b>	14-digit Health Insurance Oversight Plan ID required for carriers that submit rate filings to DOI/CMS.	Member Eligibility
