

* Data Source: Colorado Hospital Association and Hospital

** The Data Completeness Score is an indicator of how many people in an area are actually submitted by an insurance payer within the APCD data. Quartile categories are used to describe this completeness with scores ranging from C1 to C4 with C4 being the most complete. Lower scores indicate a greater degree of caution should be used in data interpretation.

C0=0% of Total Volume for this Facility - Prices will not be displayed on this website

C1=25% or less of Total Volume for this Facility is included in the data on this website

C2=26-50% of Total Volume for this Facility is included in the data on this website

C3=51-75% of Total Volume for this Facility is included in the data on this website

C4=greater than 75% Total Volume for this Facility is included in the data on this website

*** Birth events shown for Penrose Hospital were performed at St. Francis Medical Center – in the next release Penrose Hospital and St. Francis Medical Center will be displayed as one facility: Penrose – St. Francis Health Services.
