**Elective Procedures Potential Lost
Revenue for Facilities and Providers**

(two month time period, all payers)

\$406M+

The procedures in this analysis include inpatient and outpatient surgical operations & diagnostic procedures such as gastrointestinal endoscopies. Total procedures payment represents the average of allowed amounts (plan paid + member liability) paid for elective procedures from January to June, 2018. Totals represented do not include Critical Access Hospitals or payments made by ERISA-based self-insured employers. **To access the full downloadable data set and methodology, visit us at www.civhc.org.**
