- Ana English retiring December 1, 2022
 - Applications for the President & CEO position are now open and can be submitted at <u>CIVHC_CEO@civhc.org</u>
 - Visit civhc.org, Careers tab for more information

Timeline

- July-August 10 2022: Applications will be accepted through August 10th at 5pm MT
- **September 2022**: Search committee reviews candidates and selects finalists
- October 2022: Search committee interviews finalists and announces final appointment by end of October

CO APCD Supporting Policy '22

SB22-068 Provider Tool To View CO APCD Data (Rodriguez)

- Provides data about:
 - Avg reimbursement by County, DOI region, Specialty and at 25th, 50th, 60th, and 75th percentiles by CPT.
 - Includes Medicare, Medicaid, and commercial rates.
- Requires CIVHC to produce an online tool allowing review of plan and patient paid amounts submitted to the CO APCD
- The tool is under development for stakeholder review this Fall and publication on the CIVHC website by 1/2023

CO APCD Supporting Policy '22

HB22-1325 Primary Care Alternative Payment Models

 CIVHC to work with DOI to develop and report on quality measures starting in 2024.

SB22-040 Actuarial Reviews Health Insurance Mandate

No update

SB22-1278 Behavioral Health Administration

Setting up time with new BHA team to start discussions.

SB22-1370 Coverage Requirements for Health Care Products

 In 2023, CIVHC will work with HCPF to produce an annual report analyzing rebates by payer and prescription drug tier

CO APCD Data to Inform Decisions

Committee Discussion

- Developing a framework to reinforce CIVHC's role as neutral administrator regarding releases of CO APCD data.
- Establishment of confidentiality/embargo requirements for CAAC public report reviews until they are promoted.
- Per the discussion in the last meeting, a neutrality disclaimer and confidentiality policy statement have been drafted for Committee review and input.

Neutrality Disclaimer & Confidentiality Statement

- CIVHC's enabling statute requires every data release to benefit Colorado and address the Triple Aim. Also requires the CO APCD administrator to support diverse Change Agents.
- Current guidance needs clarity that CIVHC is a neutral provider of data and information.
- Goal is to clearly place a "neutrality guardrail" to avoid perceptions of bias, or unanticipated use of the public data being attributed to CIVHC
- Any review by external entities or committee members is to remain confidential until promotion

Proposed Public Reporting Disclaimer

Center for Improving Value in Health Care (CIVHC) provides public, HIPAA-compliant analyses and data sets using claims information submitted by payers to the Colorado All Payer Claims Database (CO APCD). The data is intended as a public service to advance health care transparency with the ultimate goal of improving health, improving care, and lowering health care costs. The information is not intended as a substitute for medical, financial, or legal advice, nor should it be used as such. CIVHC takes reasonable steps to ensure CO APCD data integrity but is not responsible for the accuracy or completeness of data submissions made by payers to the CO APCD. CIVHC is not responsible for information or the results of additional analysis that may be conducted and distributed using this publicly available data source.

New Data Byte Review Process

- Historically, CIVHC has not conducted a review period with Advisory Committee members prior to releasing Data Bytes
- We propose adding a review period into the Data Byte process for additional perspectives and validation of the data
- Depending on timing of the release, review period may be shorter than more in-depth interactive releases
- As with all reviews, Advisory Committee members agree to keep results confidential until promoted publicly

Paul McCormick

CIVHC VP of Data Operations

Alice Aguirre

CIVHC Data Quality Manager

APM and Drug Rebate Files Update

Test Files for the annual files were due July 1

Test files received: Ongoing

Current concerns are mostly focused on drug rebate and Prescription Drug Affordability Board files:

- Therapeutic Class reporting (Tier 1, AHFS classification)
- Questions about how to group or not group NDCs for the purposes of the PDAB reporting
- Confusion about how to report premium impact of drugs

Additional confusion about the Market Options field.

Developing a Master Patient Index

- Master Patient Index (MPI)
 - Unique person identification
 - Improves longitudinal and patient cohort analyses
 - Quality assurance: Member_Composite_ID
- Data Linking: Enrich Dataset
 - Dataset for health equity: race/ethnicity, housing, education, income, religion, and language preference
 - Quality assurance: submissions, American Community Survey

Submitter Quality Index

- Use of a Submitter Quality Index (SQI) is being implemented this quarter.
 - Goal is to assess overall submitter quality performance
 - The first version will focus on completeness and validity of
 25 data elements most commonly used in extracts/analytics
 - This will be an ongoing developmental effort as we understand what additional data elements would be of value to assess
 - CIVHC will be able to provide feedback to data submitters on the quality of their data and identify opportunities for improvement

Affordability Dashboard – APMs

Results:

- Between 2018 to 2020, across all payers, value-based APM payments as a percent of all medical payments, excluding payments by payer-provider systems, dropped from 27% to 21%.
- Value-based APM payments as a percent of all primary care payments, excluding payments by payer-provider systems, remained at 21%.
- For commercial payers, APMs accounted for 18% of all primary care payments.

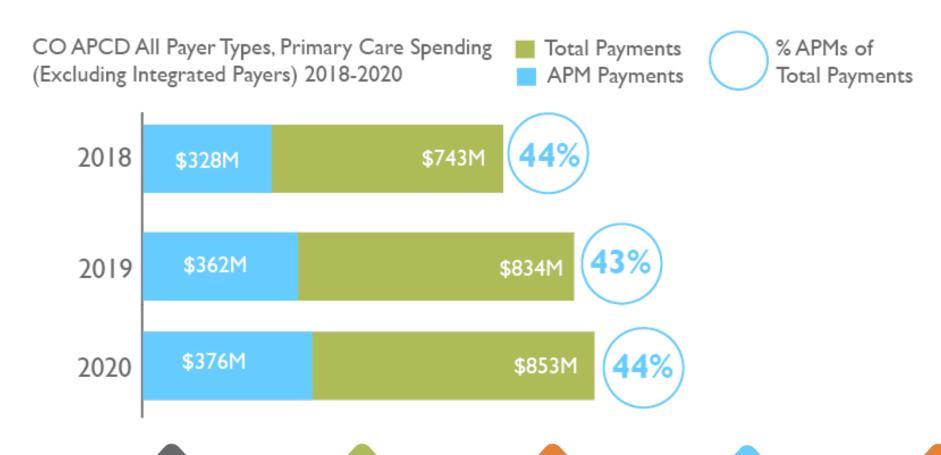

Alternative Payment Models

APM Payments as a Percent of All Medical Payments, CO APCD (2018-2020), (NOT including integrated systems or non-value based payments)

Alternative Payment Models

 APM Payments as a Percentage of Primary Care Payments, CO APCD 2018-2020
