

# Shopping for Common Health Care Services Can Save Coloradans Money

## Price Ranges for Common Health Care Services

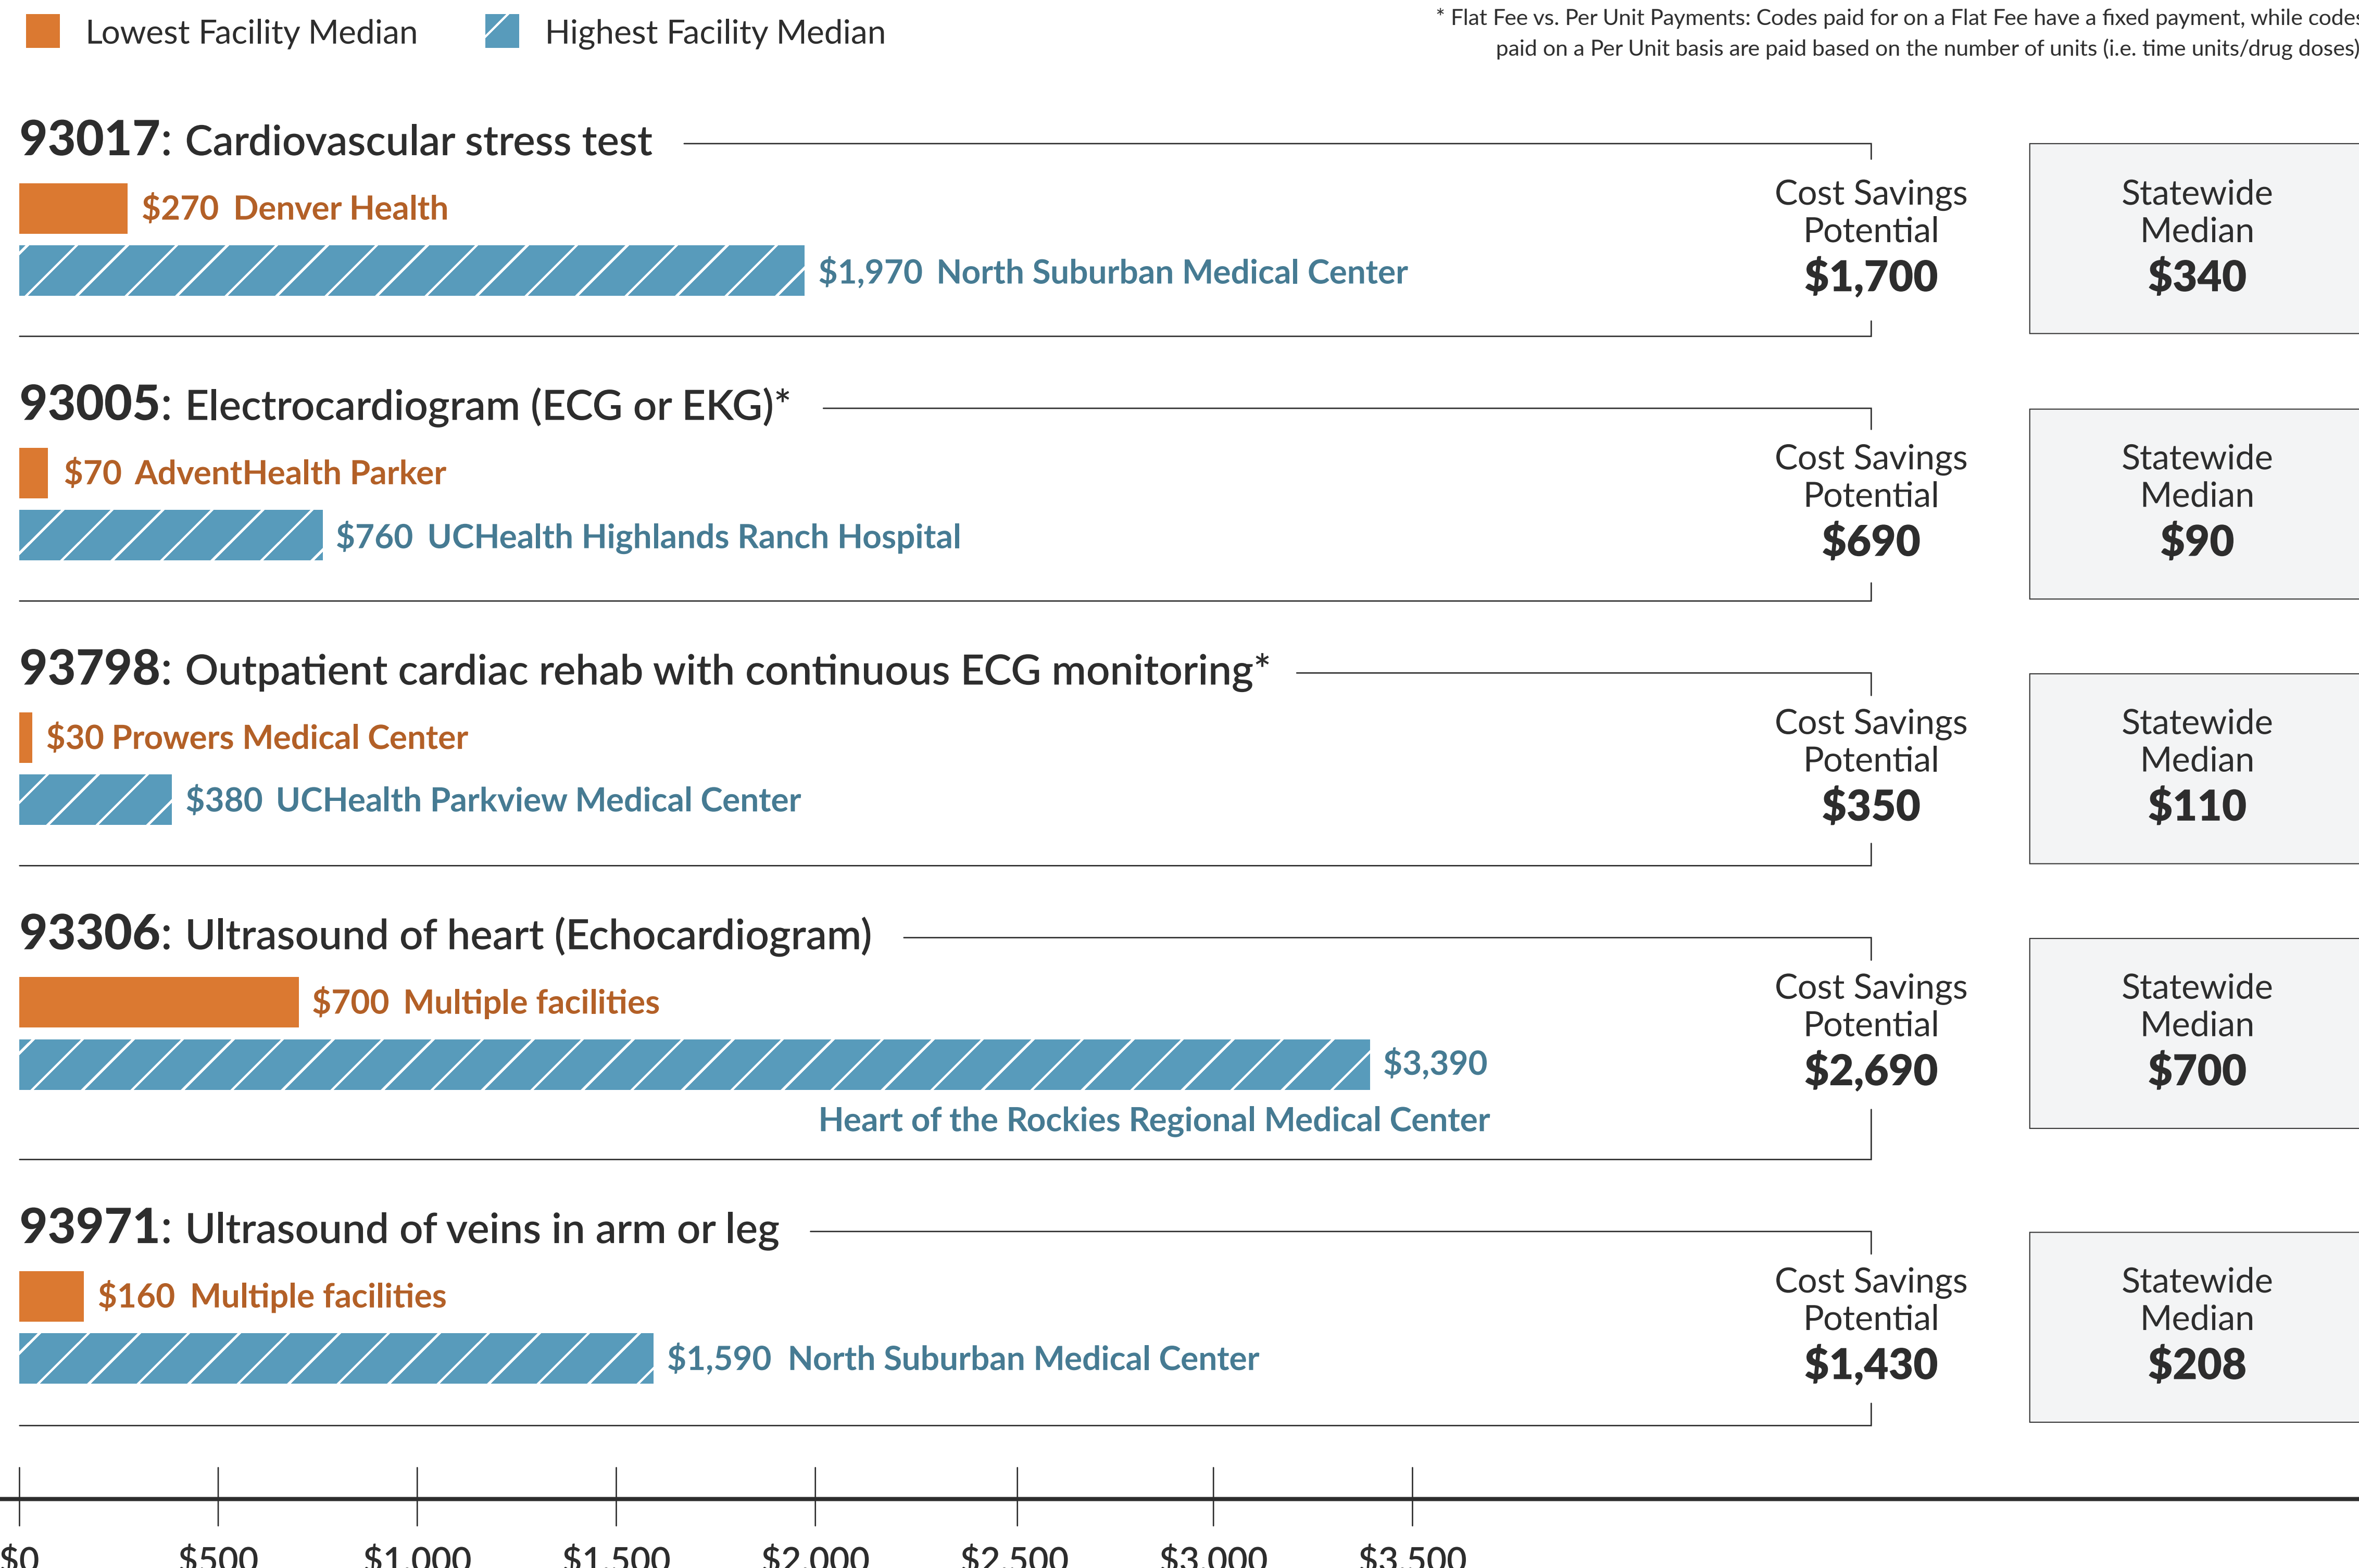

2022 DATA | COMMERCIAL PAYERS | COLORADO ALL PAYER CLAIMS DATABASE

This summary document provides price ranges and statewide medians for the most common health care services from CIVHC's [Shop for Care](https://civhc.org/shop-for-care/) tool. Price and quality for services vary significantly across Colorado, and paying more does not always mean a better patient experience or outcome. The Shop for Care tool allows Colorado consumers to compare costs and quality for over 250 health care services at over 150 hospitals and facilities across the state. Equipped with price and quality information, consumers can select facilities that provide the highest value care, while facilities and providers themselves can use the data to understand how their prices compare, and to make informed referral decisions. The prices below and in the tool online represent the total price that patients and insurance payers pay combined for the facility portion of the service or procedure.

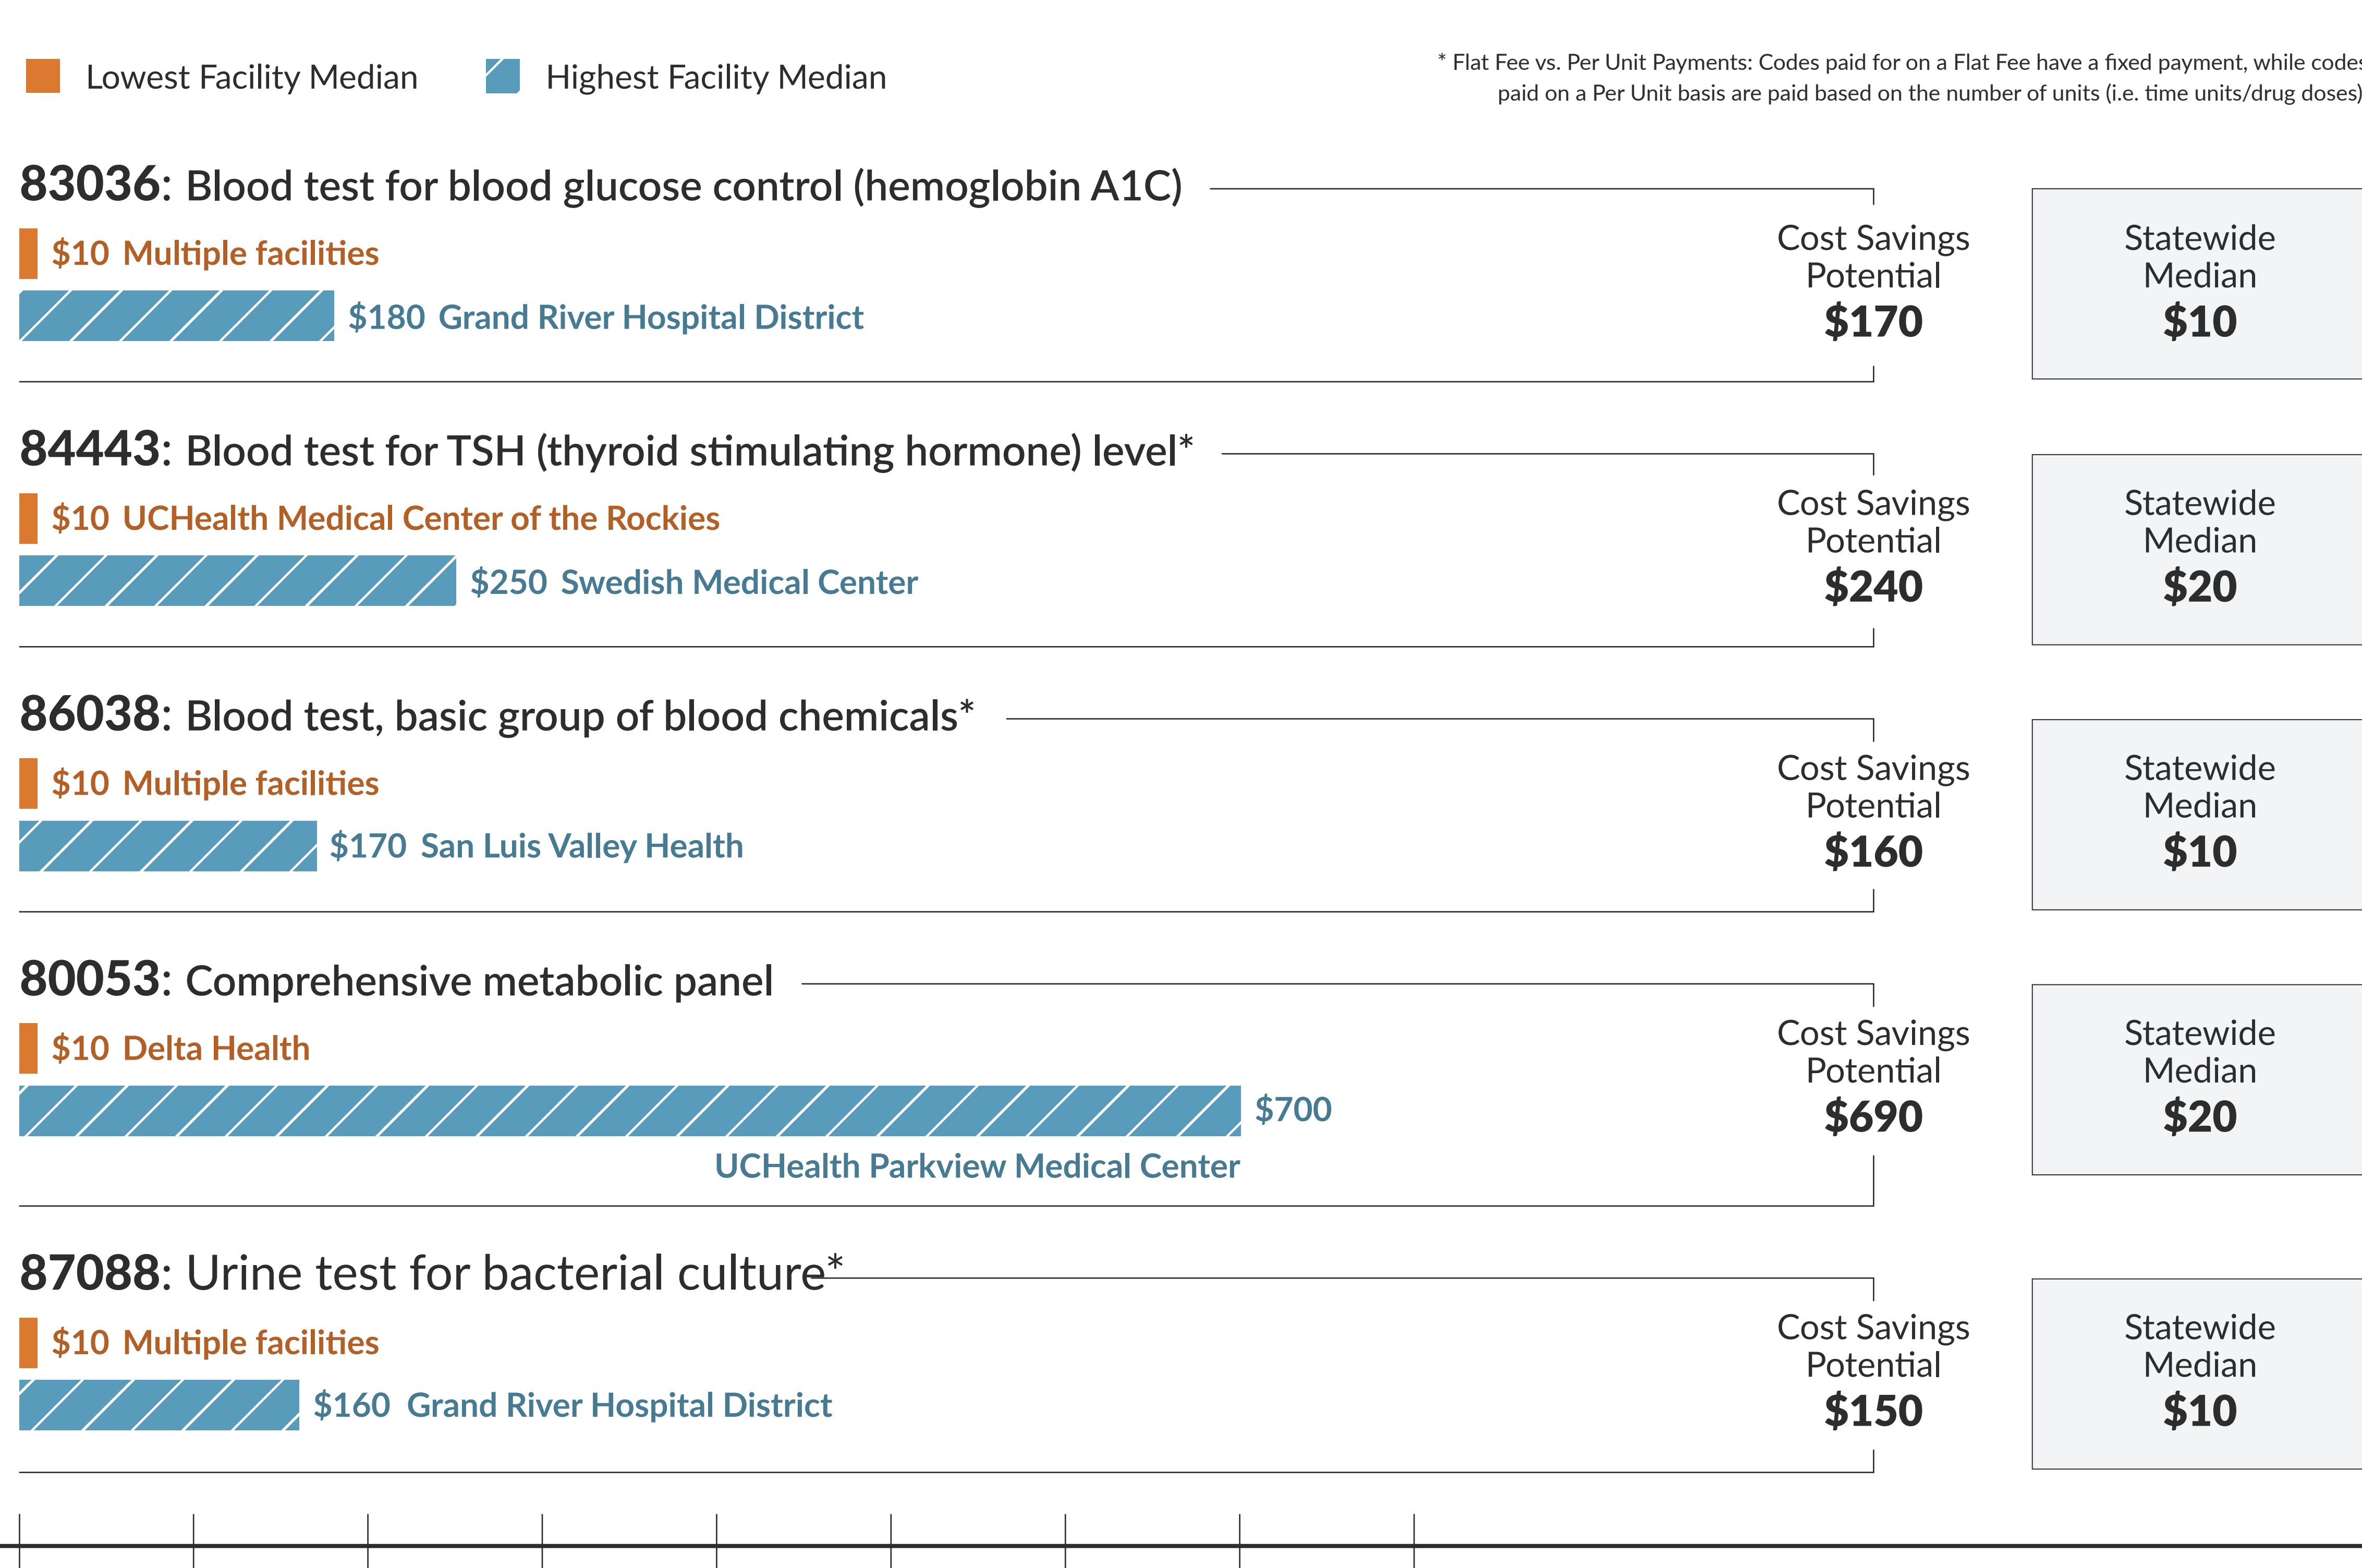

Visit <https://civhc.org/shop-for-care/> for named facility comparisons for these procedures and many more.

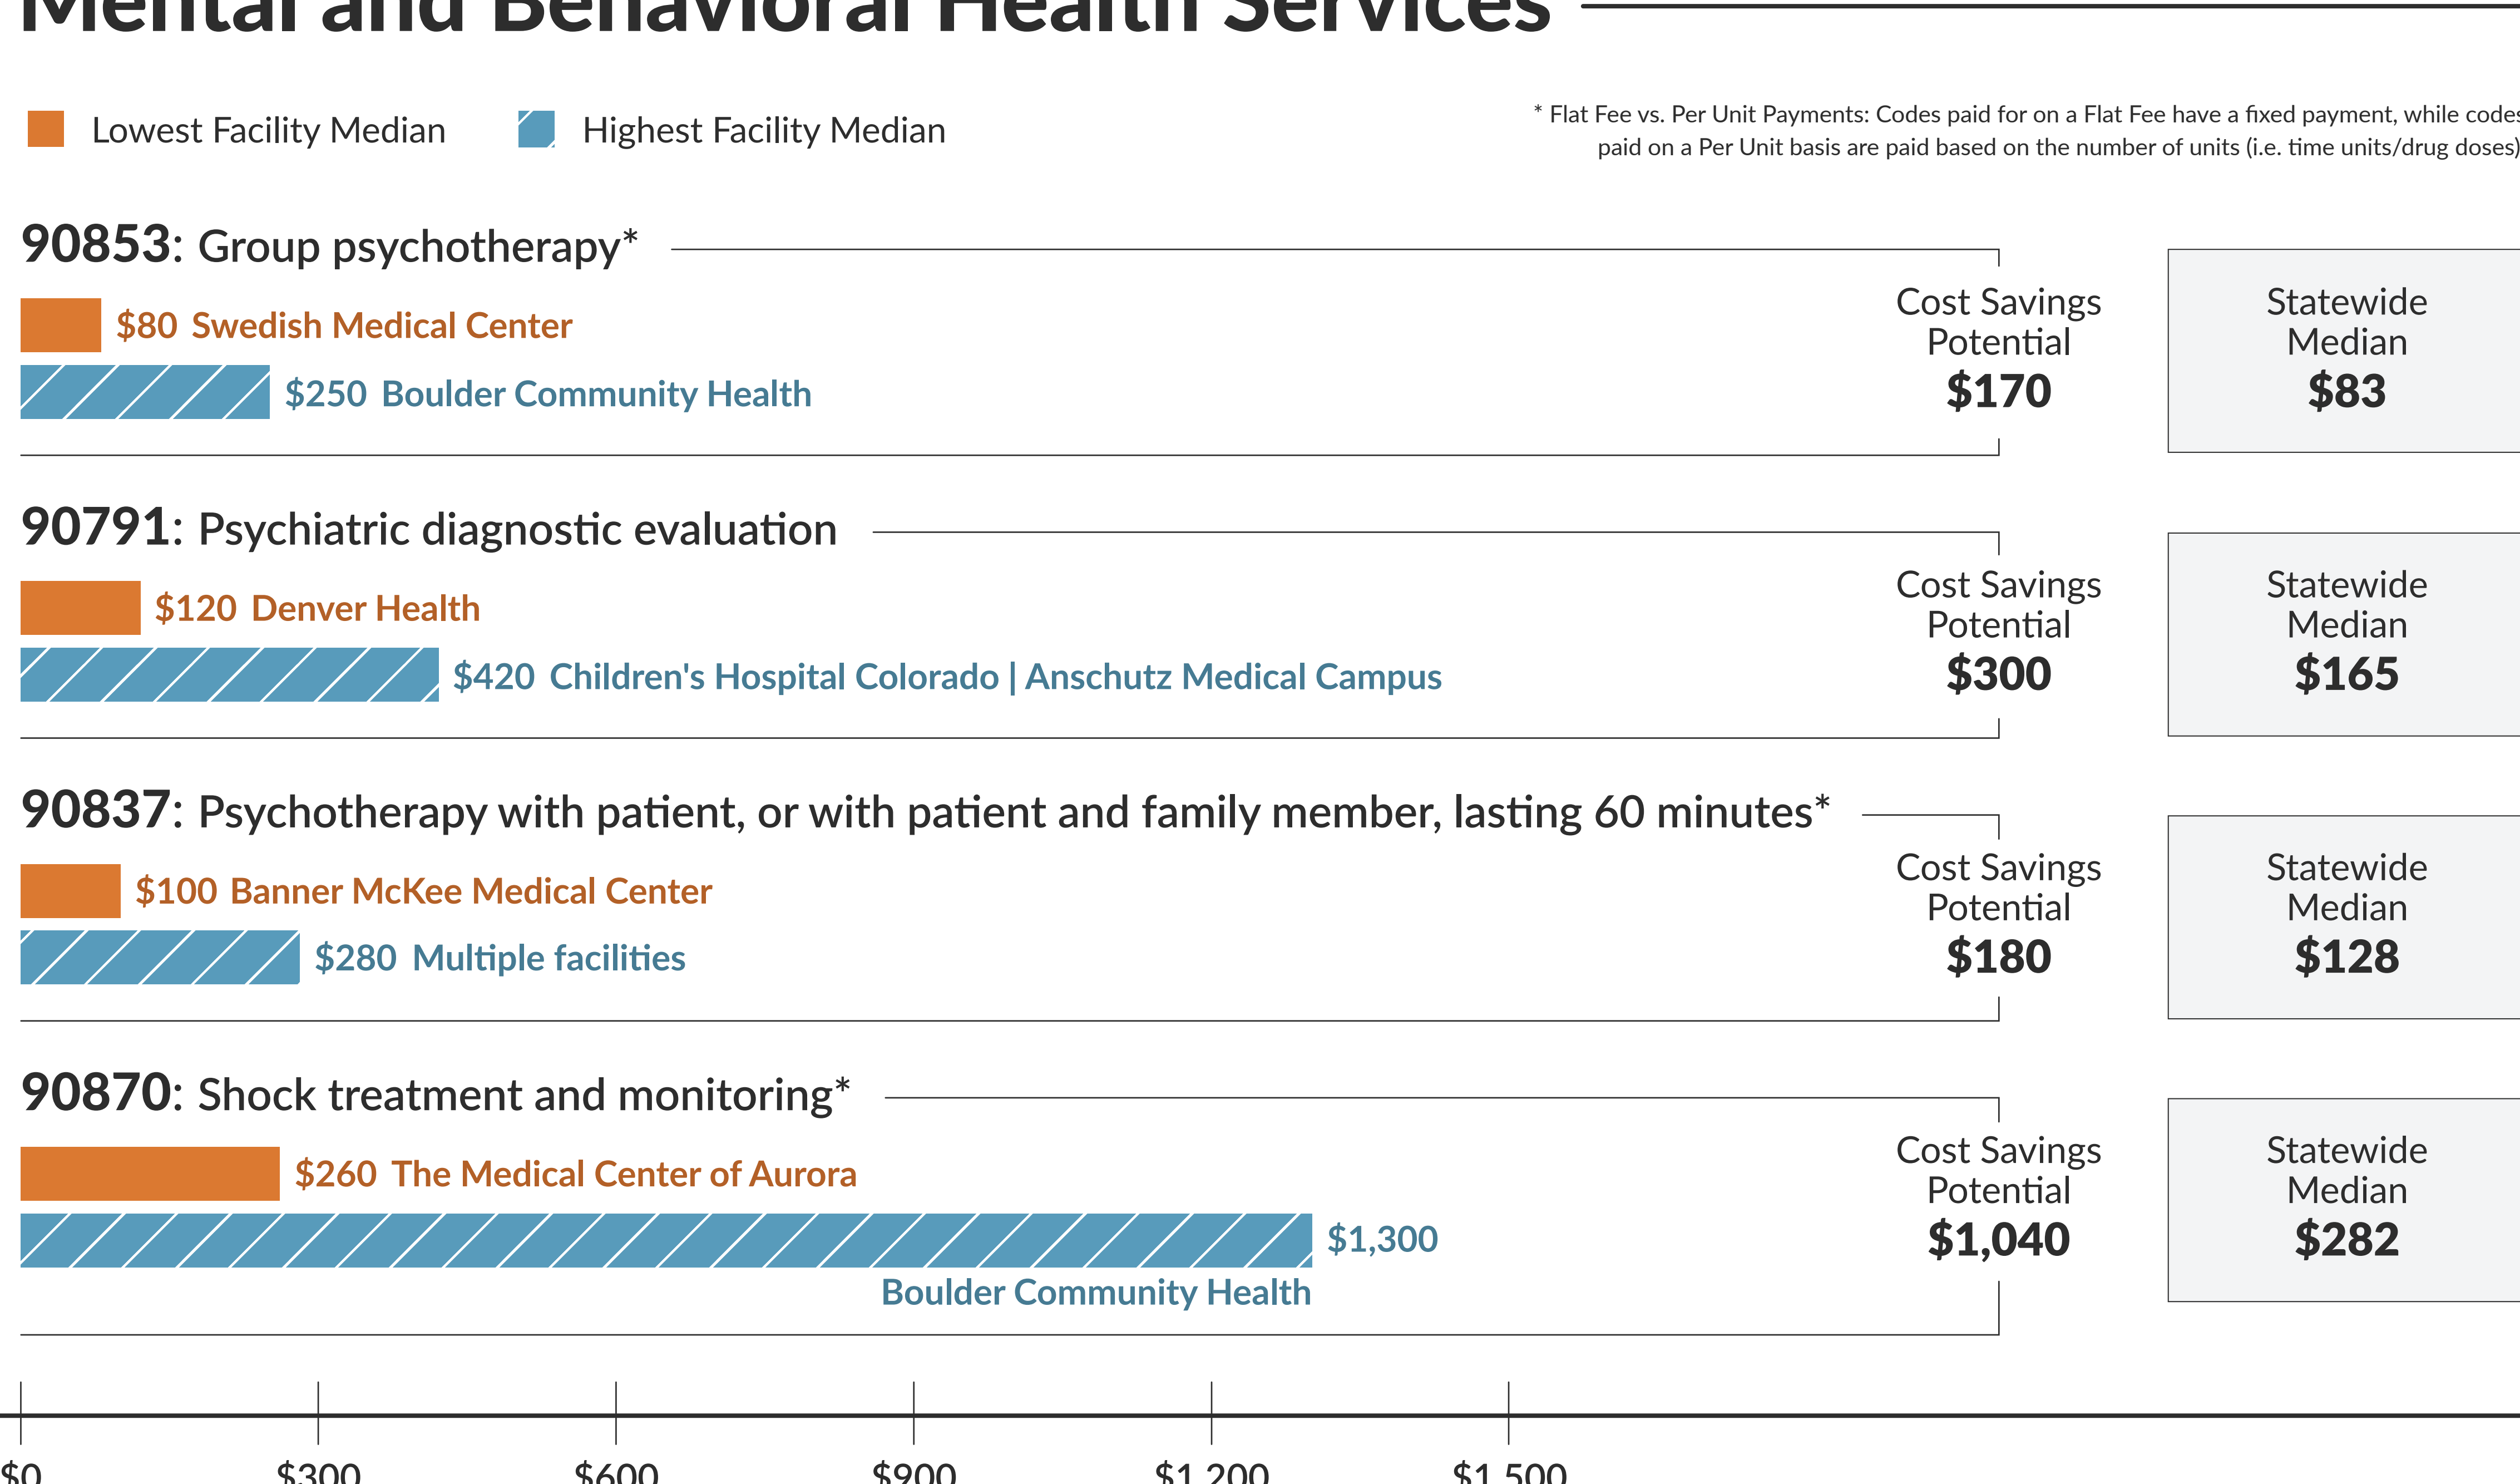

### Cardiology Procedures

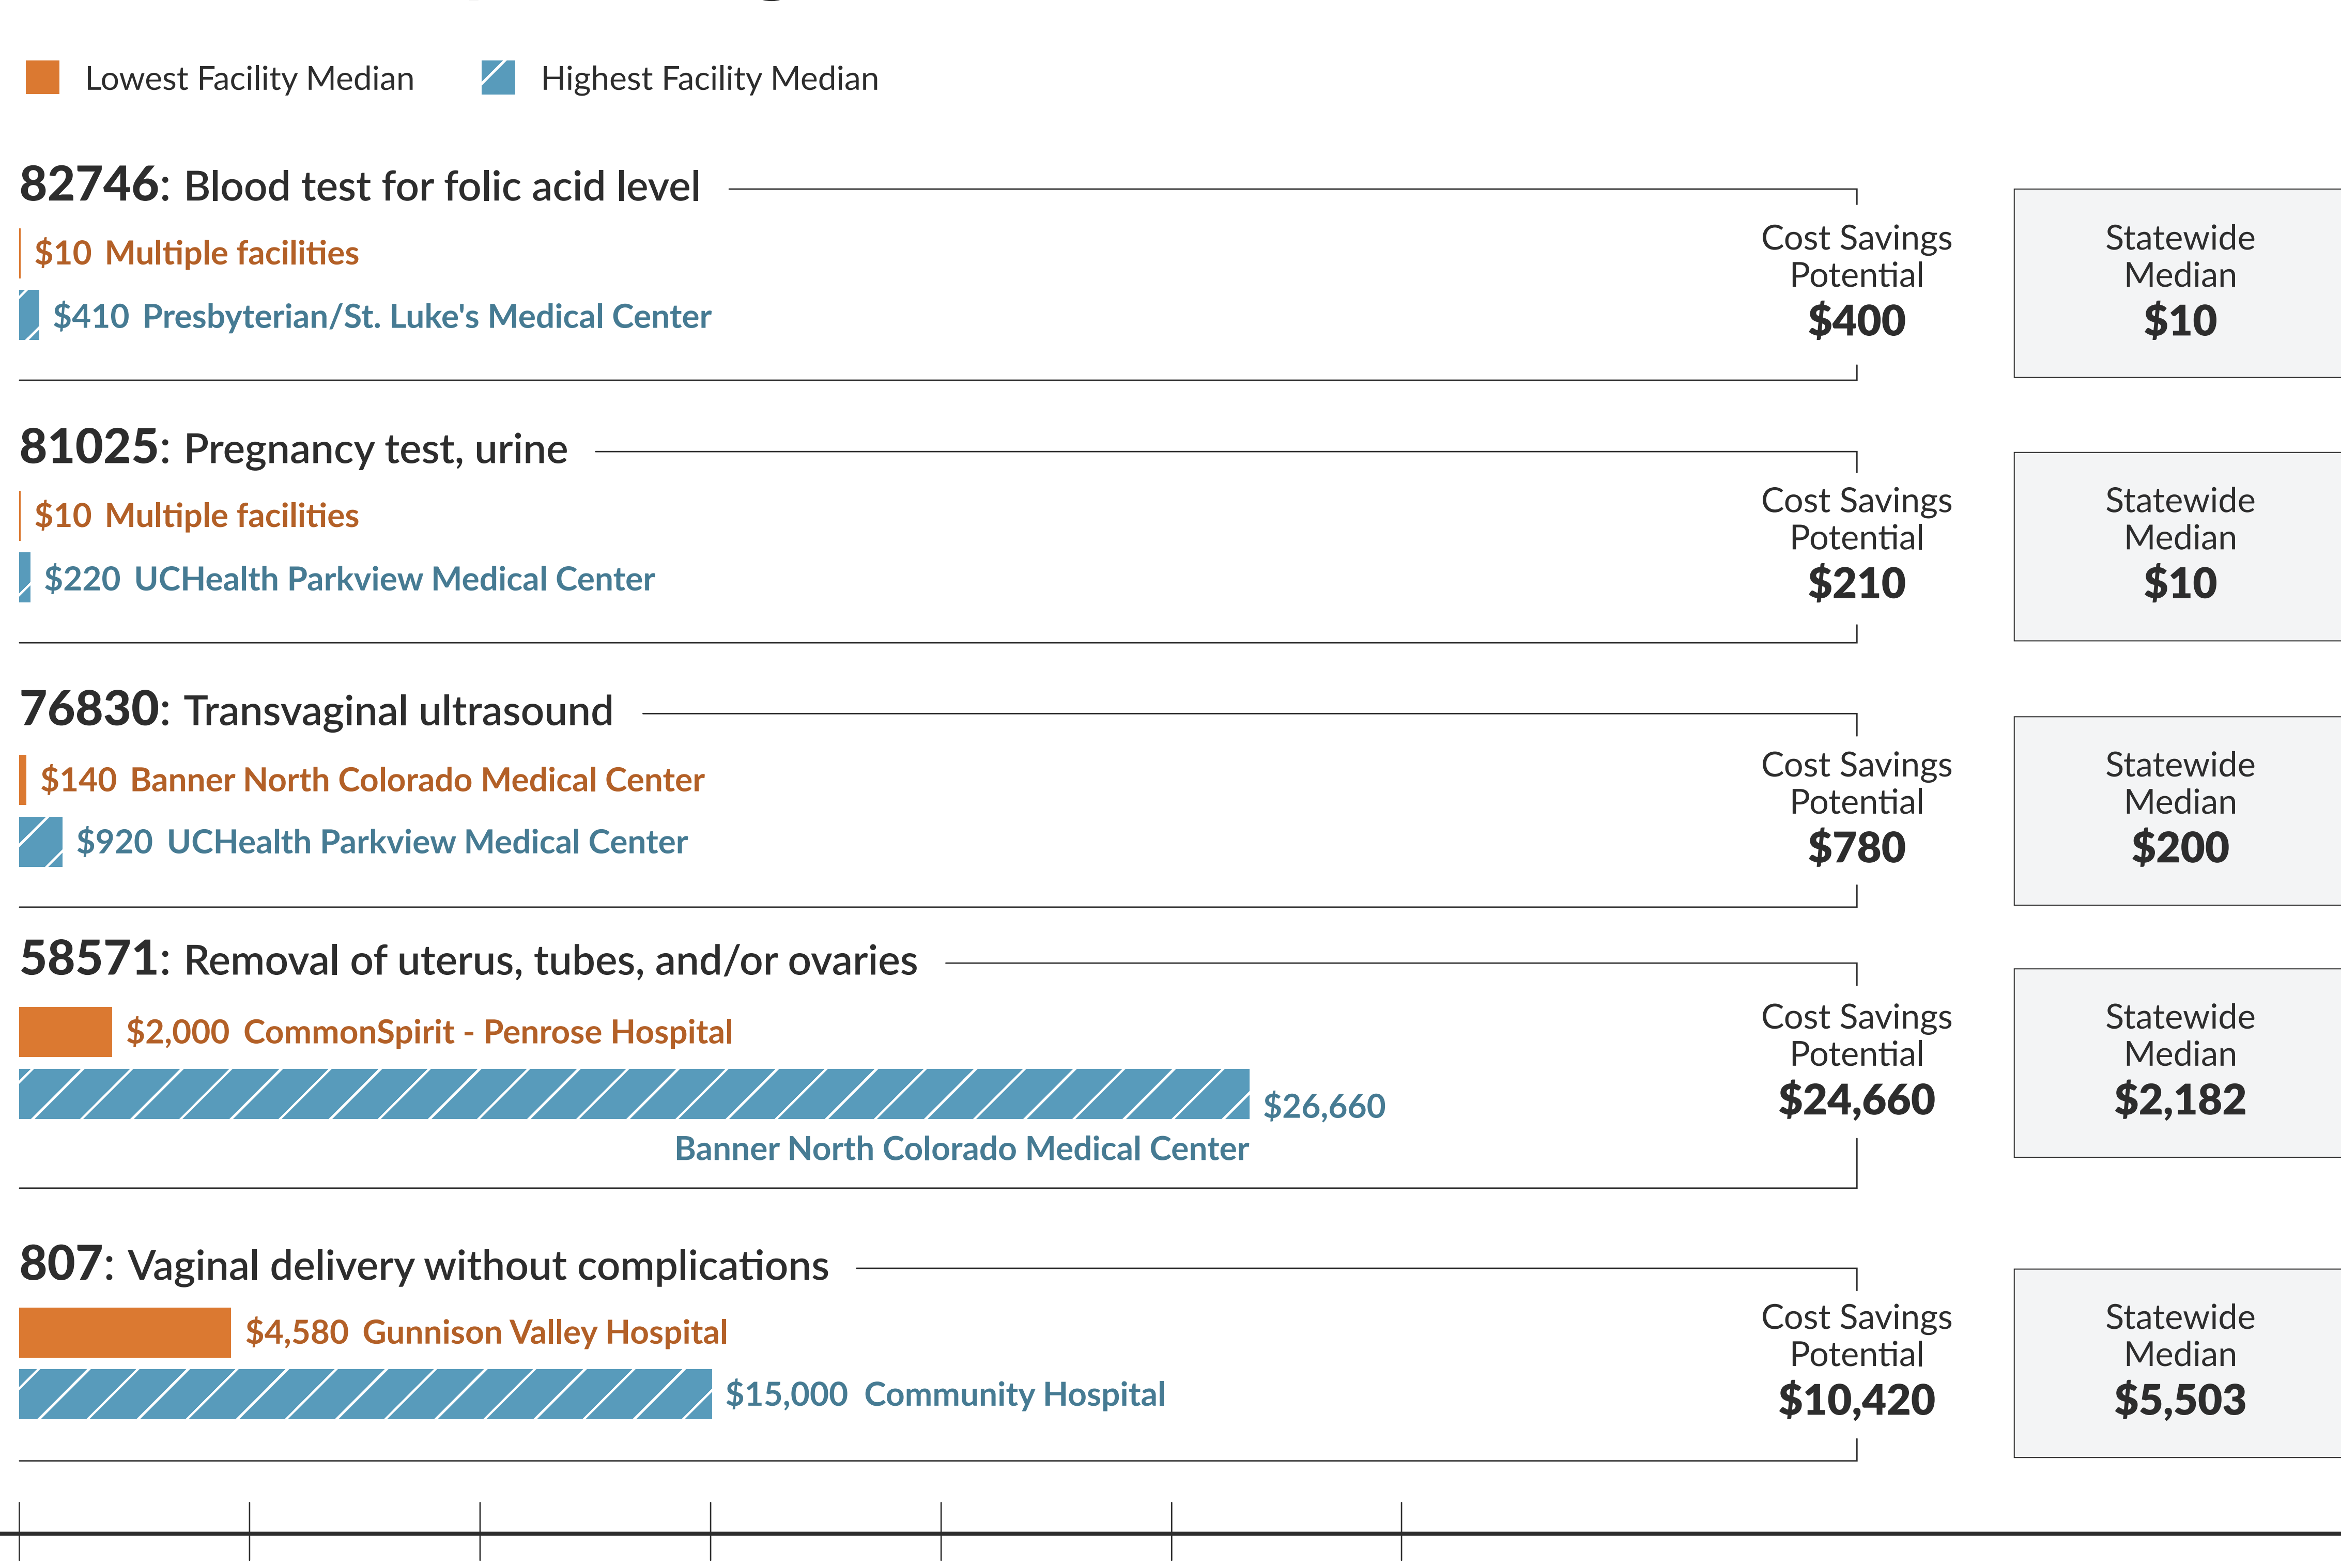

### Laboratory Services

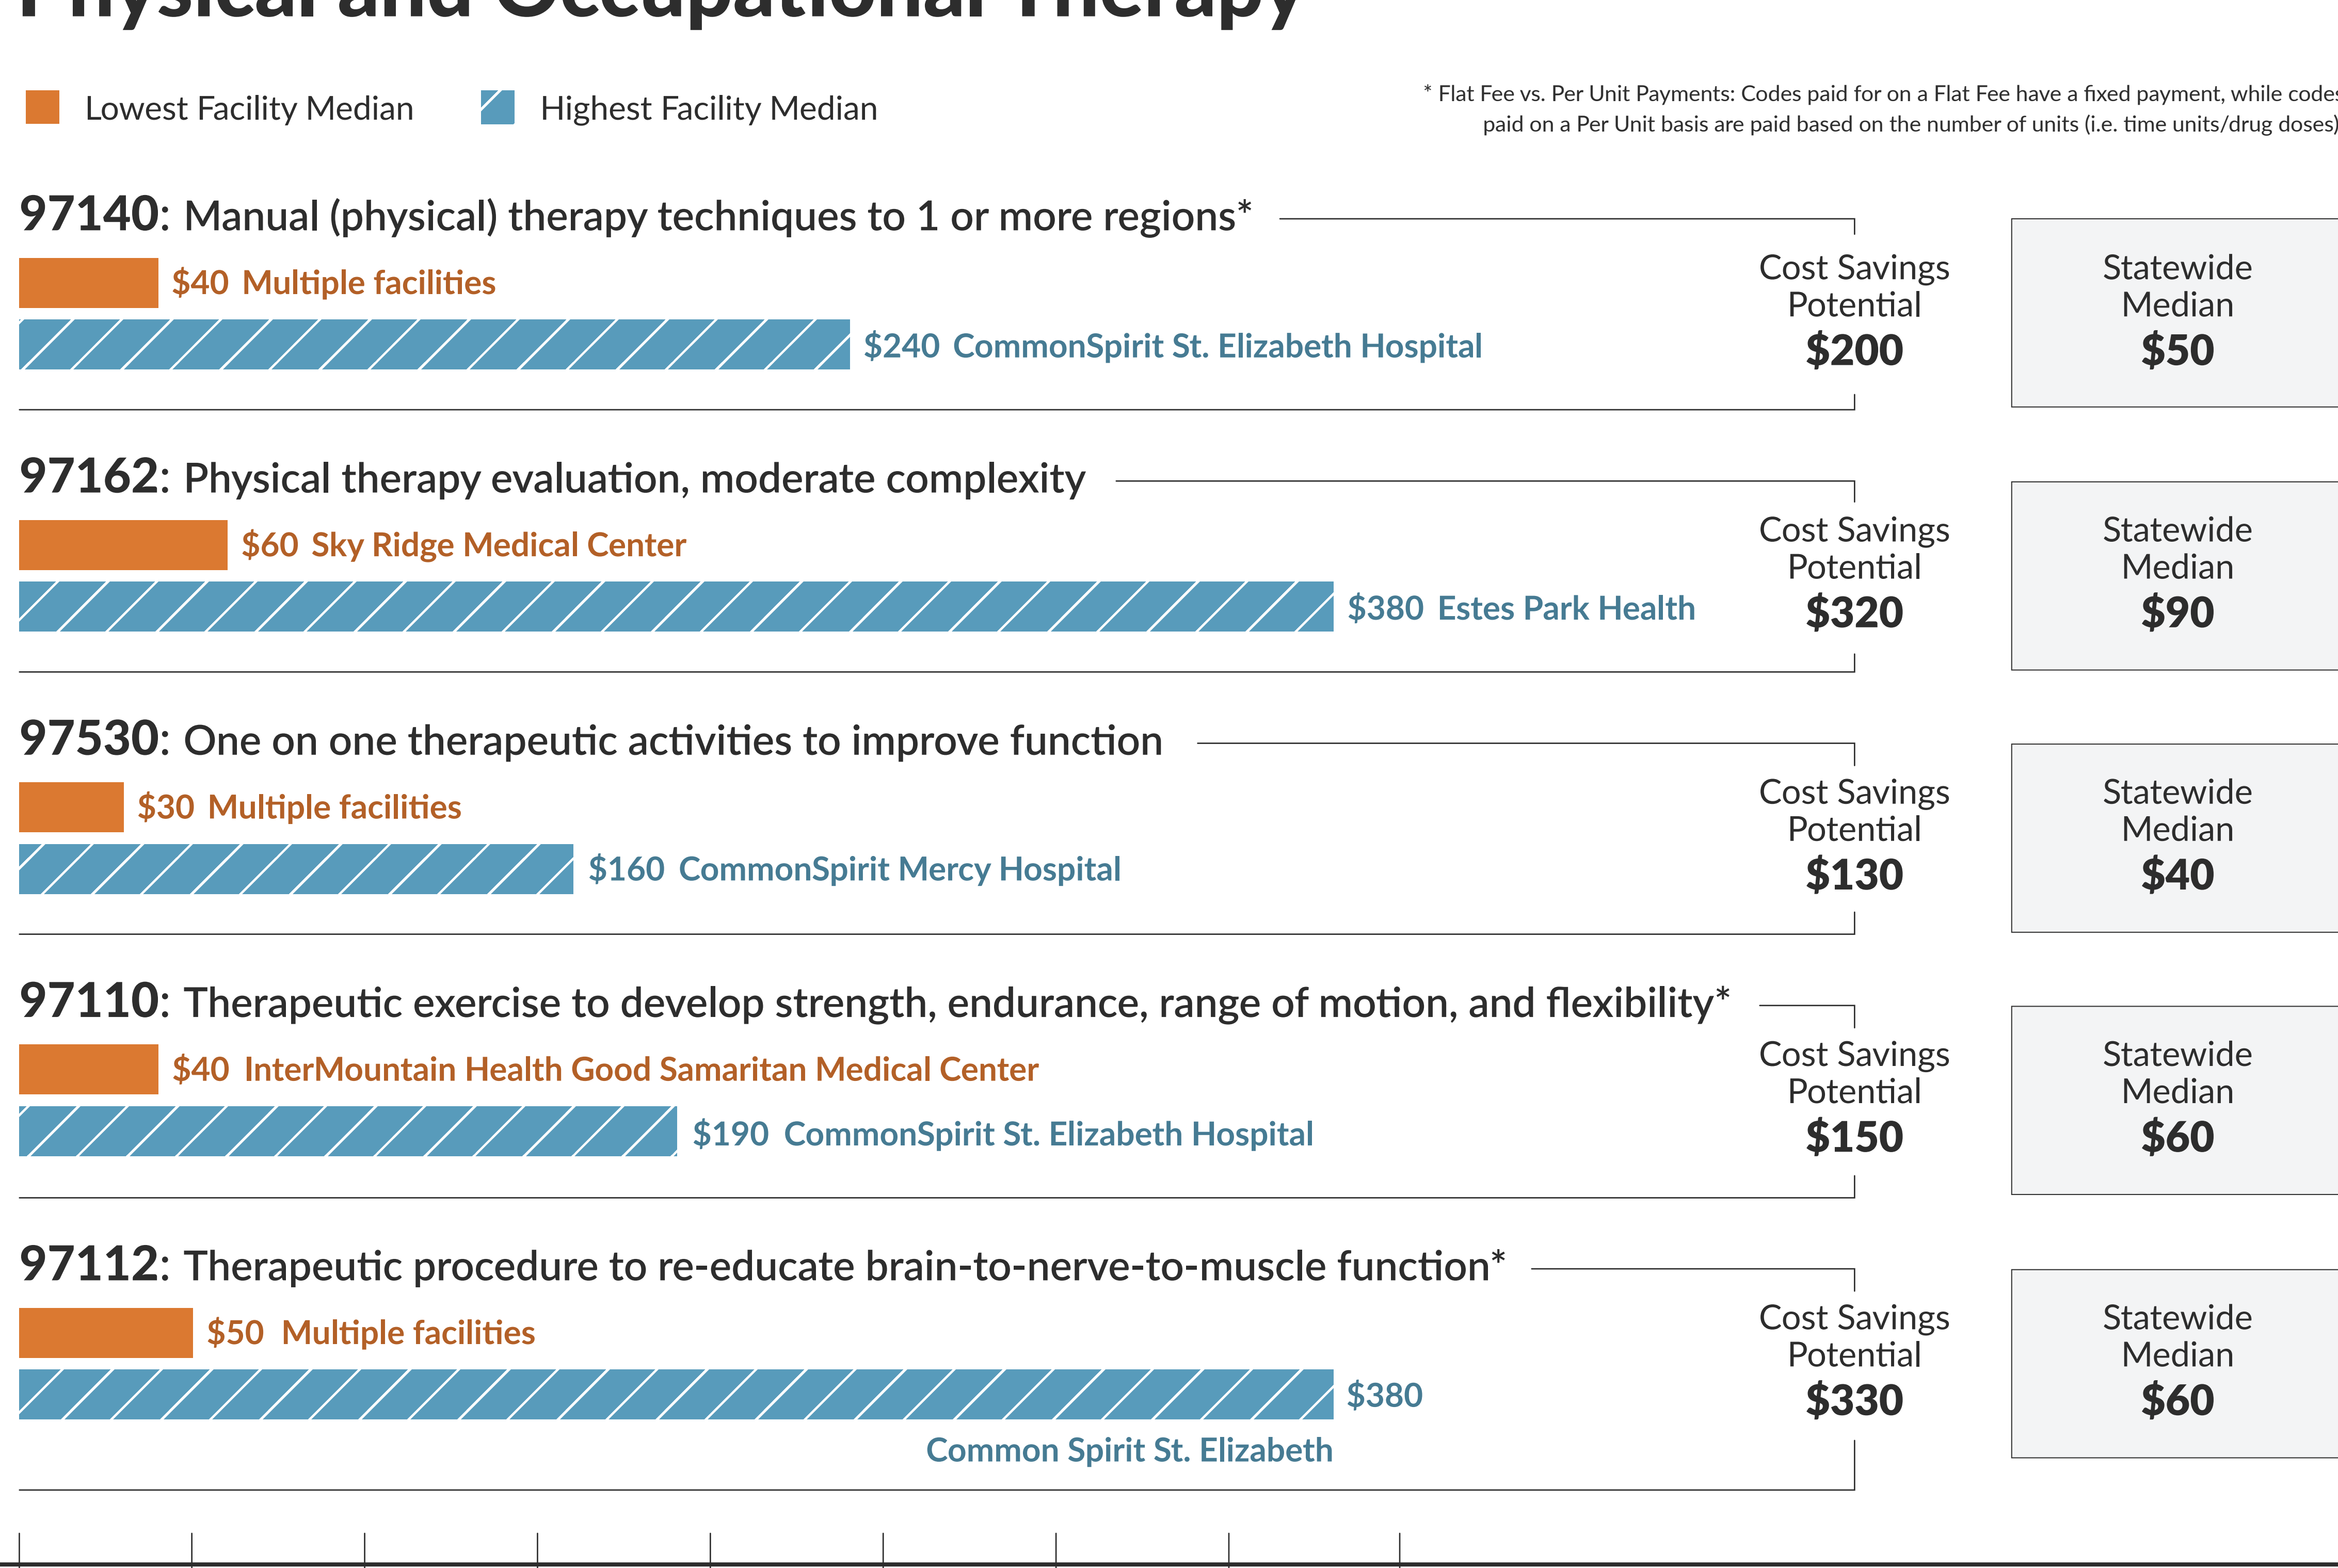

### Mental and Behavioral Health Services

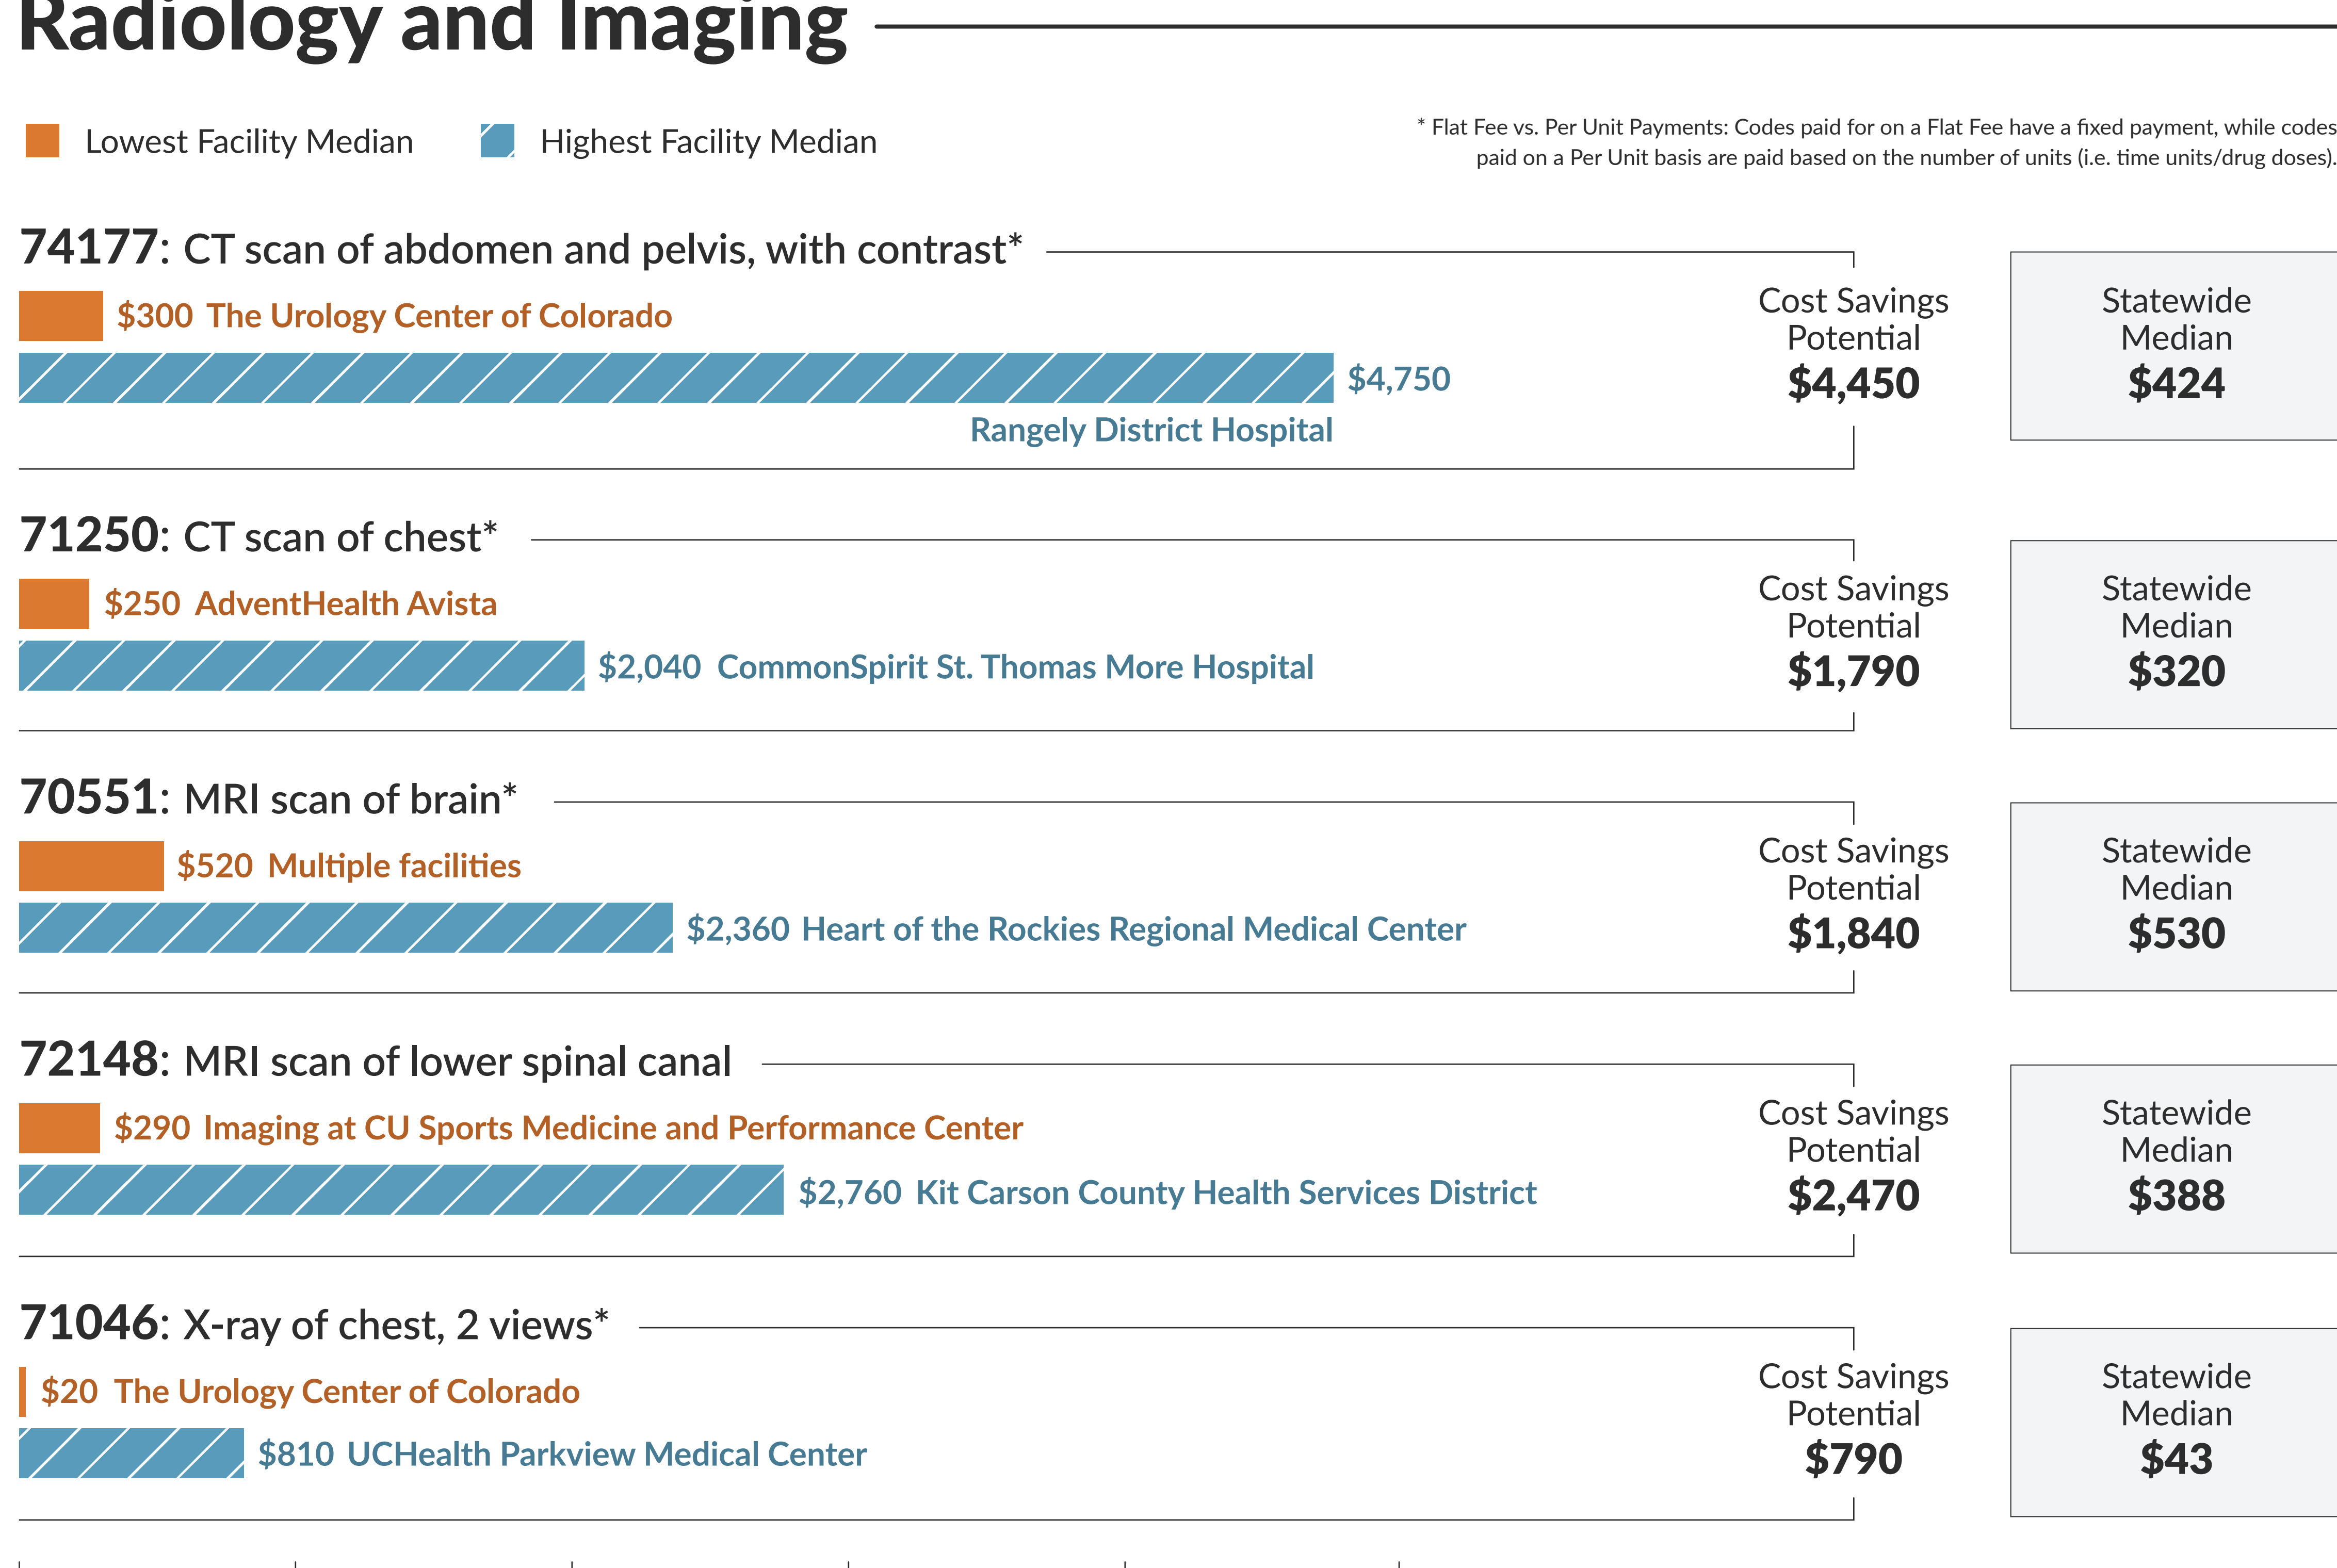

### Obstetric/Gynecological Procedures

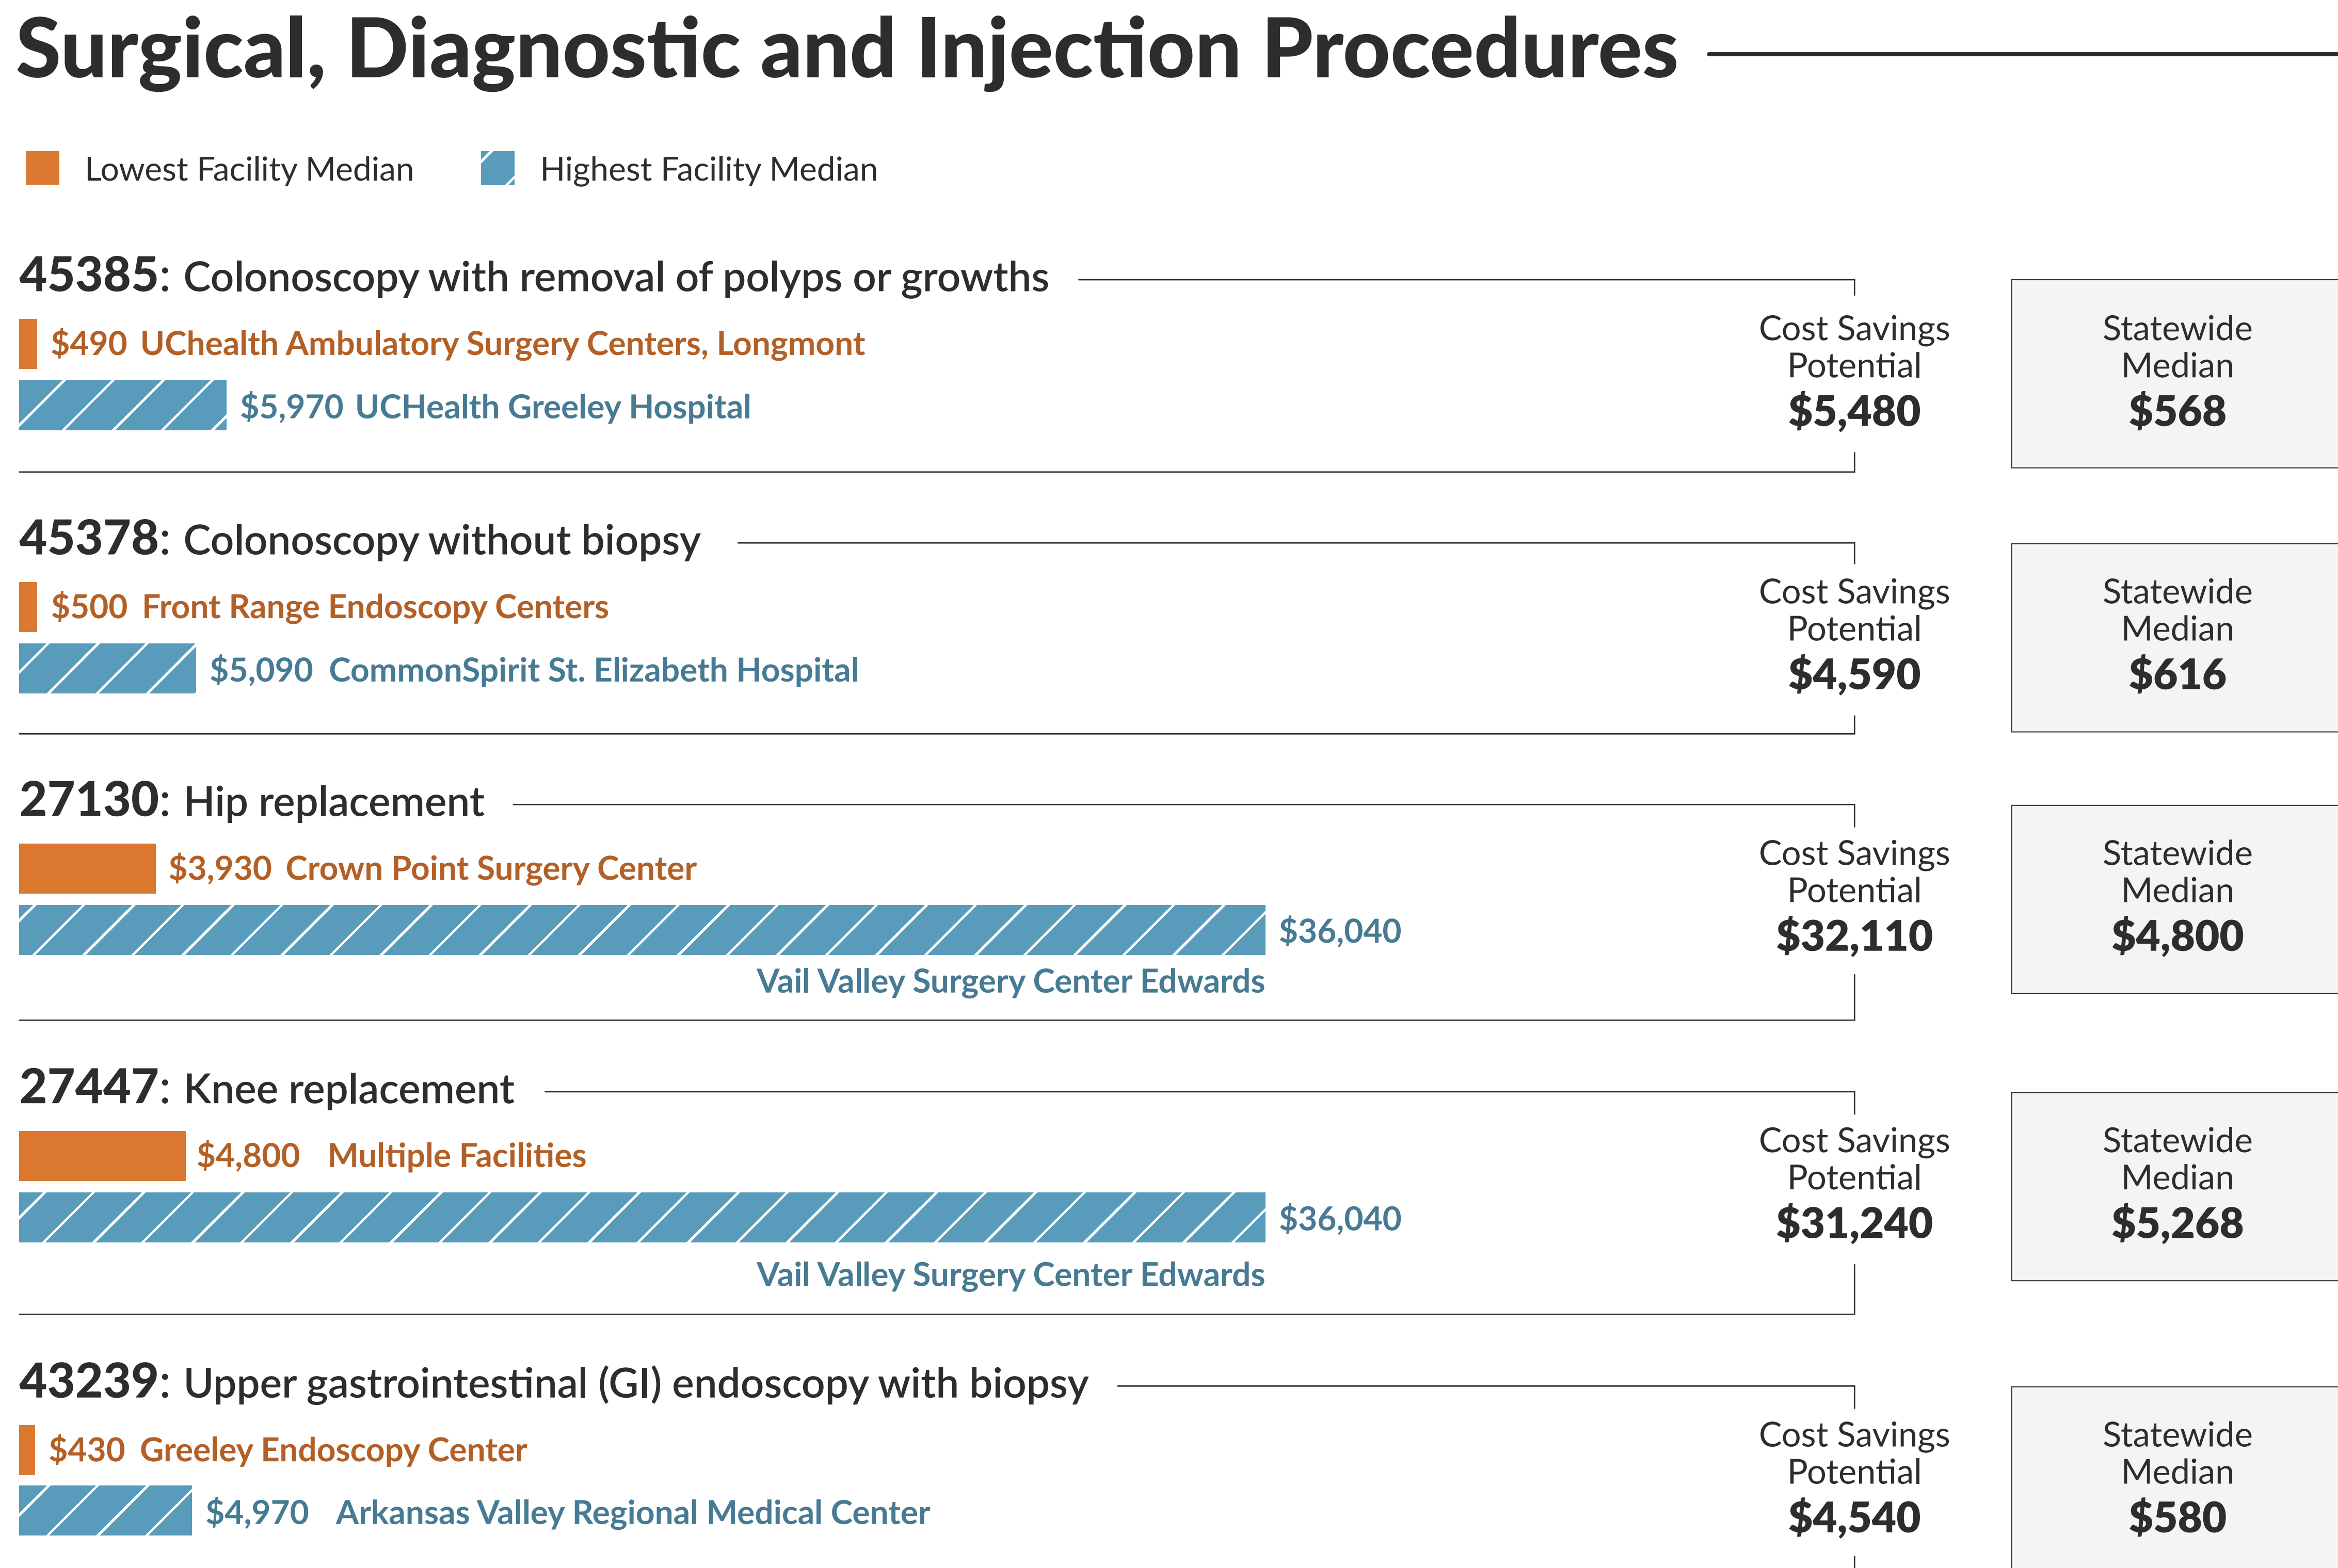

### Physical and Occupational Therapy

### Radiology and Imaging

### Surgical, Diagnostic and Injection Procedures
